

200mm dia Stepping Log Set of 4

Excavation Detail

Dimensions shown are for guidance only as stepping logs can be arranged to suit layout needed. Dig all groundworks 400mm deep.

No safety surface required as critical fall height is less than 600mm. However we suggest allowing an appropriate free space around the item in compliance with BS EN1176.

This equipment for play areas is manufactured following the codes & practice outlined in the British and European standards and in so doing meets the requirements of BSEN 1176 (general safety and test methods).
