*Dispenser
with IR sensor

*Bottle-holder

*dispenser and bottle-holder shown are purely
indicative.
These items can vary according to the availability.

Sanitisation Point is a
practical and elegant solution
suitable for indoor use.

It is designed to be both a hand
sanitation station, and a distribution point
for disposable gloves, masks, or wipes.

It is simple and intuitive to use, and
specific decals can be applied for a visual
indication.

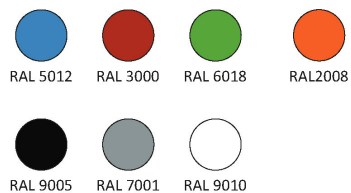

The system also includes a bin with a steel
inner liner, to ease the collection and
disposal of waste hygienically.

Thanks to pre-drilled holes on the front
side, the station can be equipped with a
battery powered automatic dispenser of
hand-sanitizer or with a stainless steel
universal bottle holder

The external structure is made of powder coated steel or stainless steel

Front panel is always in RAL 9010, smooth finish. Lateral panels can be coloured in 7 different RAL, smooth finish.

Upon request, customised stickers for lateral sides can be provided.

"SANITISATION POINT" sticker available in 6 colour combinations.

Stainless steel version

Powder coated steel version

Sanitisation Point, suitable for indoor use, is available in two versions:

The body of the unit is available in either stainless steel or powder coated steel, with front side panels coated in RAL 9010 smooth finish and lateral sides coloured in your choice of 7 colour options.

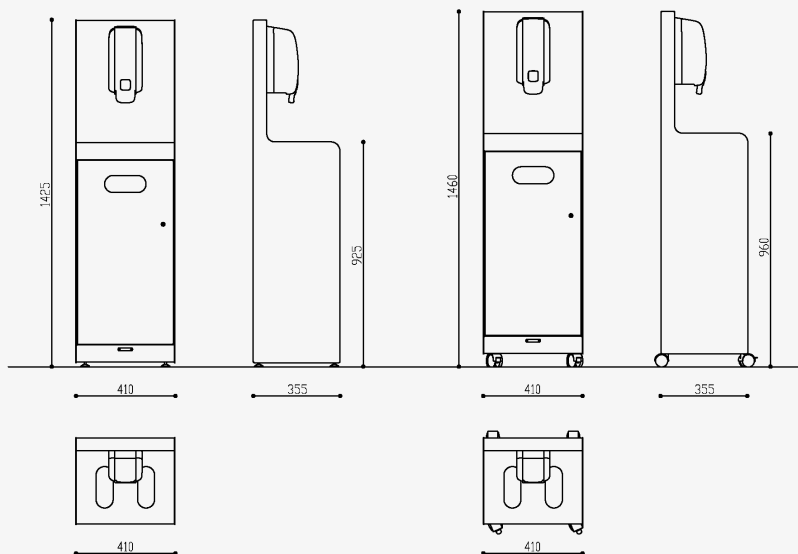

RAL 9010, RAL 3000, RAL 5012, RAL 6018, RAL 2008, RAL 9005, RAL 700

The basic model includes:

- Pre-drilled holes on the front panel.
- Compartment with front-drop door and handle for the positioning of wipes, disposable gloves or masks (not included), with decals, to be applied externally.
- Front door with 2 laser cut openings, to insert waste, and triangular key spring lock.
- SANITISATION POINT sticker for the front door, coloured in your choice of 6 options: blue & white, red & white, green & white, orange & white, black & white, and grey & white.
- Sendzimir steel sheet inner liner for waste collection.
- Adjustable feet.

The following options can be provided upon request.

- a battery powered automatic dispenser of hand-sanitizer, or, alternatively, a stainless steel universal bottle holder. Both to be fixed to the pre-drilled holes situated on the front wall.
- Four wheels in ABS to substitute the standard adjustable feet.
- Stickers customised with a logo of your choice that can be applied to the sides.

Front panel is always in RAL 9010, smooth finish.
Lateral panels can be coloured in 7 different RAL, smooth finish.
