| Height | 2250 mm |

Key Stage:

Description

For great upper body and core training there are the trapeze grips, tarzan ring beam, chin up and parallel bars. These are also ideal for working on the shoulders and back. For your glutes and hamstring use the step up timber and for work on your abdomen and quadriceps try the sit up bench. Finally for a great workout on the pectoralis muscles and the arms use the press up bar on the unit.

All AMV Timber Activity & Fitness Trail equipment is made from sustainably sourced timber and available in two grades of high-quality timber with respective warranties of 10 or 15 years.

Steel feet available as optional extra
