Understanding
the World

Role Play

Imaginative Play

Description

The Driving with Mirrors Play Panel is a great way to teach children about road safety and basic driving skills that they will use later in life. This panel is perfect for inspiring children's imaginations and encouraging role play on the playground. The mirrors are made from the best quality mirrored polycarbonate making them virtually unbreakable, and will not shatter and become unsafe in the playground environment. Secured to the main panel using an HDPE frame, which allows for different expansion rates and makes sure that the dome stays securely attached to the panel. Bespoke design options are also available. All AMV Play Panels can be wall mounted or mounted onto posts fixed into the ground. Multiple panels can be installed side by side or back to back. Please ask for further details of the options available.
