Depth	89 mm

Key Stage:

Play Values

This product supports the following areas of child development.

Fine Motor Skills

Competitive Play

Tactile
Stimulation

Inclusive Play

Problem Solving

Games & Puzzles

Description

The Pachinko Play Panel is our take on the extremely popular mechanical game originating from Japan. The panel has a pinball style spring firing pin which shoots the ball up into the Pachinko play area and then bounces off the numerous pins and blocks until it lands in one of the scoring slots (1,3 and 5). This is an interesting activity for children whether played as a scoring game or just to fire the ball and watch it clatter around in the window. All AMV Play Panels can be wall mounted or mounted onto posts fixed into the ground. Multiple panels can be installed side by side or back to back. Please ask for further details of the options available.
