Dimensions:

Length 800 mm Width 820 mm Depth 90 mm

Key Stage:

Play Values

This product supports the following areas of child development.

Fine Motor Skills

Stimulation

Inclusive Play

Auditory Stimulation

Description

This Drums Musical Play Panel is great for getting children into music while on the playground. The addition of electronic sounds to play panels adds another dimension and interaction between the user and the panel itself. Adding the extra complexity of electronics is nothing to worry about though because all the components used are commercial grade and have been designed specifically for this application. The whole system has been carefully designed and manufactured, and has now been out in the field for over 2 years with little or no reported problems apart from inevitable battery replacements, which have a life of up to a year depending on how popular the panel is. All PlayTronic musical play panels include touch sensitive activation switches with no moving parts, water-proof speaker, sealed circuitry and battery compartment with easy to change long life batteries. All the electronic parts have been designed to fit in a durable steel, water resistant case with security screws prevent unauthorised tampering. All the main components can be unplugged and swapped-out if there is ever a failure, making maintenance relatively cheap and easy to carry out. All AMV Play Panels can be wall mounted or mounted onto posts fixed into the ground. Multiple panels can installed side by side or back to back. Please ask for further details of the options available.
