Musical Play

Description

This Synthesiser Musical Play Panel is great for getting children into music while on the playground. This musical panel features the RotoGen - Human Powered Generator so that you do not have to worry about regular battery changes in high use areas. The children wind the RotoGen to create the power to make their own music. All AMV Play Panels can be wall mounted or mounted onto posts fixed into the ground. Multiple panels can be installed side by side or back to back. Please ask for further details of the options available.
