Problem Solving

Games & Puzzles

Description

The Puppy Maze Play Panel is not a typical finger trace maze panel, the maze is constructed using a series of t-slots and there is a puppy paw print sliding disc to navigate around the maze to get from the start to the finish. The addition of the sliding disc adds a new dimension to the traditional maze play panel that children are going to really enjoy playing with. Bespoke design options are also available. All AMV Play Panels can be wall mounted or mounted onto posts fixed into the ground. Multiple panels can be installed side by side or back to back. Please ask for further details of the options available.
