Inclusive Play

Understanding the World

Discovery Play

Description

The Solar Explorer Play Panel is a really fun moving parts panel, not only does it have t-slot channels to navigate the Explorer discs around the panel, it also has 4x rotating planets that the Explorer discs slide into (visiting the planet) and then rotate the disc around to line up with another destination and visit more planets. Bespoke design options are also available. All AMV Play Panels can be wall mounted or mounted onto posts fixed into the ground. Multiple panels can be installed side by side or back to back. Please ask for further details of the options available.
