Play Values

This product supports the following areas of child development.

Visual Stimulation

Inclusive Play

Description

The Starburst Panel is a new style panel, which utilises tinted translucent polycarbonate window inserts into a fun Starburst design. Polycarbonate is the perfect material for these windows, as it is virtually unbreakable and has been vigorously tested. When the sunshine passes through the coloured windows they cast the colours onto the floor in front of them. Bespoke design options are also available. All AMV Play Panels can be wall mounted or mounted onto posts fixed into the ground. Multiple panels can be installed side by side or back to back. Please ask for further details of the options available.
