Depth	44 mm

Key Stage:

Play Values

This product supports the following areas of child development.

Fine Motor Skills

Tactile Stimulation

Inclusive Play

Problem Solving

Nature Play

Games & Puzzles

Description

The Tile Slide Butterfly Play Panel has 8 sliding tiles with images that when joined together correctly create a Butterfly. This is a fun and entertaining game for children to play during break times. The Tile Slide Game Play Panels are based on the popular tile slide puzzle, that most of us have played with at some point in our lives. The approach to this game was to use a new sliding disc principal which makes the sliding of the tiles effortless and easy, without any snagging. Each game has 8 movable tiles that glide effortlessly around the panel. Because the discs slide in tracks, there are no loose pieces to worry about going missing or to put away and get out again each day. All AMV Play Panels can be wall mounted or mounted onto posts fixed into the ground. Multiple panels can be installed side by side or back to back. Please ask for further details of the options available.
