Description

The Bells Musical Play Panel contains 3 stainless steel dome bells that creates a unique sound within the music panel range. The high quality stainless steel bells used are played with a tethered beater and are best considered for controlled environments. The Bells unique sound are a great addition to the ensemble. This range of high quality play panels, with musically tuned instrument inserts, are the best musical instrument play panels on the market today. These musical panels and products are not to be confused with those from other manufacturers that just make a noise. All AMV Play Panels can be wall mounted or mounted onto posts fixed into the ground. Multiple panels can installed side by side or back to back. Please ask for further details of the options available.
