This product supports the following areas of child development.

Gross Motor Skills

Co-Operative Play

Communication Skills

Description

An ideal unit for smaller children and children with limited mobility due to the large low level platform which allows for manoeuvrability.

The Oakhill incorporates a slide (either stainless steel or plastic), Juliette balcony, steps with a handrail and climbing ramp with handrails. Included on the 600mm high platform is a steering wheel.

The adventure playground equipment is modular to enable variations to be incorporated to suit individual playground needs, in addition we are able to offer a range of safety surfacing to go under the playground equipment.
