Play Values

This product supports the following areas of child development.

Description

Sanitisation Point MAGELLANO is a compact solution for the distribution of devices, such as disposable gloves, masks, or wipes, thanks to two removable shelves, easily fixable with knobs.

Suitable for indoor use, it can be also a hand sanitisation station: appropriate pre-arranged holes on the front side of the station, allow to place a battery powered automatic dispenser of hand-sanitiser or a stainless steel universal bottle-holder. The automatic dispenser comes with a practical drop-collector.

Thanks to an optional litterbin with elastic bag holder, the station can become also a point for the collection of waste.

Litter Bin Capacity 38L Weight 14kg
