Description

Our Madera line consists of unique playground equipment made of stainless steel with a natural look.

On the Madera Parcours children can play together and meet each other in the "spider web"™ or halfway one of the poles. At the same time, the curved poles, with a special, strong light-brown coating, stimulate the imagination of children playing, because a curve like that could be anything. The Madera Parcours is standard equipped with green ropes and a green net.
