Musical Play

Description

The Conga Drum or more properly the Tumbadora is a tall, narrow, single-headed African drum. We've taken the traditional conga drum and added our own twist to bring drumming and music-making to the great outdoors. The Congas are a pair of single headed drums mounted onto a stainless steel post to be installed directly into the ground. Made of heavy-duty ABS these strong and durable drums are painted in bright colour combinations for visual appeal. These drums really do sound as good as they look and combine outstanding playability with high energy, a wonderful sound and unmistakable visual appeal. Available as a Trio (all three pairs) or Individual Pairs: Small | Medium | Large - each producing different tones.
