Description

With the largest standing over 2.5m in height, our Emperor Chimes really are the daddy of all chimes - large in sound and size! As a full set of six they offer a complete C-Major Pentatonic octave C3-C4. Striking the chime with your hands just about anywhere along the tube produces a deep, resonant, powerful tone that you not only hear, but can feel as well. The harder you strike, the more it will vibrate, creating a louder sound with such resonance you can actually feel the vibration through your entire body. It is an amazing experience and you really do feel like you have been bathed in sound!
