Auditory Musical Play Stimulation

Description

Playing any instrument with the notes from a blues scale will instantly create a blues vibe - and these plosive aerophones are no different.

The blues goes hand in hand with creating 'music in the moment'.

Rather than thinking about notes or theory, it's the sound, style, and feel of what you're playing that matters most.

Our seven blissful notes on the Blues Tembos allow players to don their 'blues hats' and make some amazing sounds bluesy sounds.
