

# Marimba

Product Code AMVPP-MI-044

## Price on Application

Price includes FREE delivery to UK mainland (excluding Highlands).

### Dimensions:

Length	1580 mm
Height	860 mm
Depth	925 mm

### Key Stage:

## Play Values

This product supports the following areas of child development.

Fine Motor Skills

Inclusive Play

Auditory  
Stimulation

Musical Play

## Description

Our outdoor Marimba is big enough for up to four people to come together and play at any time - great for impromptu and improvised performances which are relaxing and fun plus a new and interesting way to explore music making. The fifteen chunky notes are supported by heavy duty stainless steel cable and made from Fiberglass Reinforced Plastic, tuned to the diatonic scale of C-Major. When hit with the attached beaters they make a mellow, warm rich sound. The GRP is made to look like our favourite hardwood - Purple Heart - it's also extremely strong and robust and virtually maintenance free. The contemporary stainless steel stands will look delightful anywhere, from a public park, school playground, woodland or private garden area. This marimba experience allows musicians and non-musicians alike to perform creative music in interesting outdoor settings.
