Communication Skills

Description

The Early Years Train Set products are fun and exciting set of modular train and station accessories for the children to play on. Each unit is durably built using high quality materials and unlike most of the competitive products out in the market place, the Early Years Train Set products do not feature any timber, so they will not rot, crack, split or develop splinters, which is very important when early years children are playing on them. Ernie the Engine, The Carriages, along with the Station Shop and Ticket Office Panels can all be purchased separately so you can buy what you need now and add to them later. They are designed to be freestanding, but can also be secured to the ground with optional ground anchor lugs if required.
