Role Play

Imaginative Play

Co-Operative Play

Communication Skills

Description

Play Huts and Dens are fun, imaginative spaces for children to play and socially interact with each other. Each unit has a bench seat and a counter to enhance the role play and because each unit is manufactured from HDPE, it will be safe and free from cracks and splinters. Constructed using HDPE panels and recycled plastic posts, assembled with stainless steel fasteners. The Huts are supplied fully assembled and ready for freestanding use, but can be anchored to the ground using optional ground lugs (at extra cost). There is a range of designs to choose from, but you can also customise the huts to your specification, including your own graphic designs and colour options.
